

SACs Recruitment

Join Our Scientific Advisory Committees

We are looking to recruit 32 new experts to join our Scientific Advisory Committees.

This year we are also recruiting associate members, aimed at encouraging early and mid-career researchers to be involved in the work of the FSA, and to create a pipeline for future full members of the SACs.

We are particularly interested in hearing from applicants with expertise in the following areas:

- Social Scientist (with a background in food systems)
- Economics
- Statistics
- Organisational/business behaviours background in food systems)
- Foodborne Virology
- Food Industry (fresh produce, composite foods, foods with complex international supply chains and quality requirements, major retailers e.g., supermarket)
- Meat Parasitology
- Antimicrobial Resistance in Food
- Lay Member
- GM/molecular biology (animal)
- Veterinary
- Toxicology
- Bioinformatics
- Clinical Toxicology
- General Toxicology
- Reproductive Toxicology
- Pathology
- Allergy
- Modelling
- Statistics

- Metabolism and Toxicokinetic
- Dietary Exposure Assessment
- Safety in the Workplace (workplace exposure assessment, irritancy & sensitisation studies, feed mill & farm context)
- Microbiology or molecular biology, specifically with expertise in genomics
- Analytical chemistry
- Food packaging
- Lay Member

[See here for more details on the recruitment process and how to apply.](#)
